DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 11, 2009 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

On page 9, line 9, please replace the text "-- when V1 112 is turned on --" with "-- when V1 110 is turned on --".

On page 9, line 18, please replace the text "-- i.e., V1 110, enable quicker --" with "-- i.e., V1 110, is turned off, enable quicker --".

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the field effect

transistor having a source coupled to the second diode and a drain coupled to the first diode and the device to be powered, as recited in claim 6, must be shown or the feature(s) canceled from the claim(s). Figures 2 and 3 illustrate a field effect transistor having a source coupled to the secondary power source (112) and a drain coupled to the second diode (104) (see page 8, line 1). The drain is not coupled to either the first diode or the device to be powered. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 1-12 allowed.

5. The following is an examiner's statement of reasons for allowance:

Claims 1-5 and 11 are allowed because none of the prior art of record discloses or suggests a field effect transistor, having a source coupled to the secondary power source; a first diode, coupled to a drain of the field effect transistor and to a device to be powered; a second diode, coupled to the primary power source and the device to be powered; and an inverter, coupled to the primary power source and to a gate of the field effect transistor, wherein the inverter maintains the field effect transistor in a pinched-off condition and prevents a current flow from the secondary power source whenever the primary power source is available, in combination with the remaining claimed features.

Claims 6-10 and 12 are allowed because none of the prior art of record discloses or suggests a field effect transistor, having a source coupled to the second diode and a drain coupled to the first diode and the device to be powered, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

6. Applicant's arguments, see Remarks, filed August 11, 2009, with respect to the objections to the drawings have been fully considered and are persuasive. The objections to the drawings have been withdrawn.

7. Applicant's arguments, see Remarks, filed August 11, 2009, with respect to the objection to the drawings and the rejections of claims 1-10 have been fully considered and are persuasive. The objection to the drawings and rejections of claims 1-10 have been withdrawn.
